# About Us

W360 is an Indian company engaged in manufacturing, supply and exports of Industrial and scientific goods. We emphasize on prompt responsiveness, timely execution and on time delivery of the product to provide an exceptional customer experience.

Our key business areas include -

- **Laboratory Instruments:** We provide precise solutions for Analytical Laboratory instruments, process measuring systems, consumables and services for varied applications.
- **Manufacturing equipment:** We provide machines and equipment used in manufacturing plants.
- **Water treatment components:** We provide a wide range of components and chemicals used in water and waste water treatment plants like STP, ETP, WTP and Recycling Plants.
- **Polymer packaging :** We provide Flexible and rigid packaging that can be used for a wide range of products, including food, drinks, and personal care products.

# Vision

W360 was conceived based on the vision to become a trustworthy name in providing precise industrial solutions for applied sciences projects, manufacturing plants and engineering endeavors worldwide.

# Mission

At W360, we want to make life easier for scientists, process engineers, facility managers, plant heads and EPC contractors to deliver superlative projects on time.

## Registration and Memberships

# Lab Instruments

## Associated Brands

## Other Allied Services

1. Packaging as per requirement.
2. Calibration Services.
3. Consultancy for Lab Setup.
4. Demo/Training of equipment.
5. Supplier for Chromatography Consumables (HPLC Column, GC Column, SPE Cartridges, Syringe, & Vials etc.)
6. Lab Grade Chemicals & Filter Paper.
7. Microbiological Media & CRMs as per ISO 17025 & 17034.
8. Glassware fabrication as per customer requirement.
